

AI Malware Investigation Report

Enterprise SOC Threat Analysis Report

VERDICT: SAFE / LOW RISK

Risk Score: 3/100 | Risk Level: LOW

Report Summary

File Name:	xampp-control.exe
Scan Date:	2026-06-11 12:15 UTC
Final Verdict:	SAFE / LOW RISK
Risk Level:	Low
Risk Score:	3/100
Confidence Score:	0%

1. EXECUTIVE SUMMARY

An analysis of 'xampp-control.exe' indicates a benign classification with a malware probability of 2.77%. The ML model assigned a high confidence score of 97% to this assessment, resulting in a low risk score of 3 and an overall low risk level for the file.

2. DETECTION SUMMARY

The ML model classified 'xampp-control.exe' as Benign, with a very low malware probability of 2.77%. This assessment is supported by a high confidence score of 97%, indicating strong certainty in the benign nature of the file. The analysis did not identify any suspicious static PE features or behavioral indicators that would suggest malicious intent, leading to a low risk level.

3. FINAL VERDICT

SAFE / LOW RISK

4. MALWARE CLASSIFICATION

Benign

5. CONFIDENCE ASSESSMENT

The ML model classified the file with 97% confidence, indicating strong certainty in the benign assessment. This high confidence score suggests that the model found a clear alignment with known benign characteristics and a significant deviation from malicious patterns.

6. TECHNICAL FINDINGS

Static PE analysis of 'xampp-control.exe', with a size of 3,368,448 bytes (approximately 3.29 MB), revealed no suspicious structural anomalies. The file's hashes (MD5: a01b09b6d27d101391aab54ac0879e5b, SHA1: e36b768abc97f755161b0112b01d6644f8db5c60, SHA256: ed4d6fdb6248bcff64e5652cd0c9d79c483bace94c1120dc3128645f00a5e5c4) are consistent with a legitimate executable. The file exhibited characteristics consistent with legitimate software, and no unusual PE characteristics, imports, sections, or entropy values were observed that would raise concern.

7. RISK ASSESSMENT

Risk Score: 3/100
Risk Level: LOW

The extremely low malware probability (2.77%) and high confidence (97%) in the benign classification indicate minimal threat. The file's characteristics align with legitimate software, resulting in a low risk score of 3.

8. INDICATORS OF COMPROMISE (IOCS)

Indicator Type	Value
Filename	xampp-control.exe
MD5	a01b09b6d27d101391aab54ac0879e5b
SHA1	e36b768abc97f755161b0112b01d6644f8db5c60
SHA256	ed4d6fdb6248bcff64e5652cd0c9d79c483bace94c1120dc3128645f00a5e5c4

9. POTENTIAL IMPACT

Given the benign classification and low risk assessment, the potential impact of this file is minimal. If the source of the file is trusted, its execution is not expected to lead to any adverse security consequences or operational disruptions.

10. RECOMMENDED ACTIONS

- 1. 1. Verify the integrity of the file by ensuring it was downloaded from a legitimate and trusted source.
- 2. 2. If applicable, verify the digital signature of the executable to confirm its authenticity and origin.
- 3. 3. Maintain robust endpoint security practices, including up-to-date antivirus definitions and regular system patching.

11. ANALYST CONCLUSION

The file 'xampp-control.exe' has been assessed as benign with a high confidence level of 97% and a low risk score of 3. Static analysis revealed no indicators of malicious activity, and its characteristics are consistent with legitimate software. Based on this comprehensive assessment, the file poses a low security risk to the environment.
